

NICOLAI RÉMY

Hi American Energy Partners!

Nicolai Remy creates custom timepieces that are perfect to give out at any occasion: onboarding new employees, welcoming new investors, celebrating the success of a project - all deserve the pomp and circumstance of a stylish watch.

Corporate gifts usually consist of water bottles, hats, and t-shirts. We're engineers, we know. We love these gifts and wear them all the time when we're lounging around on weekends, but how about a gift that complements a tailored suit as well as summer shorts?

These are beautiful timepieces that can be customized to portray your company's image: we don't just throw a logo onto the watchface and ship it, we will work with your designers to find the perfect way to emphasize your corporate ideals with the bracelet style, the metal color, even the box the watch is delivered in. We have the production capacity to meet any quantity requirements.

We are an Oklahoma City based company that hopes to have a big impact on the community. We made a commitment to donate all of our profits to good causes, and would love to partner with AEP to make that happen.

We look forward to working with you. Please call or send us an email to request a quote or an in-person meeting!
